

Plastic

Yes please

- All visibly clean products and packages of hard or soft plastic
- Overhead film that doesn't contain confidential information
- Plastic pockets

No thanks

- Dirty and sticky/goosey/messy packages
- Tubing
- Infusion equipment
- Blood bags
- Disposable aprons
- Face masks
- Gloves
- Plastic pockets
- Styrofoam
- Catheters and probes
- Packages/infusion bags that contain/have contained pharmaceutical residue from chemotherapy drugs, antibiotics or hormones
- Plastic strapping
- Packages with the following warning symbols

Handling

The plastic should be clean and dry. Remove strings, tape, metal and rubber pieces. Put in a plastic bag. Close the bag securely with strapping, put it in the waste vacuum system and select Plastic. Please only put in one bag at a time.
