No thanks

- Waste that can cut/jab or spread contagion
- Biological waste
- Non-combustible objects
- Pharmaceuticals
- Electrical products
- Chemicals
- Glass
- Light bulbs/fluorescent tubes
- Containers with the following warning symbols

Handling

Put combustible waste in a bag. Close the bag securely with strapping, put it in the waste vacuum system and select Combustible. Please only put in one bag at a time. Non-combustible items and large items can be sorted as bulky waste.
